Introduction:

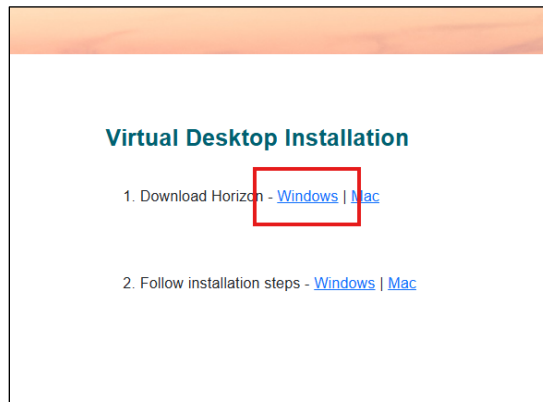

This document outlines the steps taken to download and install and log into Omnissa Horizon client on Windows devices.

Procedure: How to download Omnissa Horizon client and install.

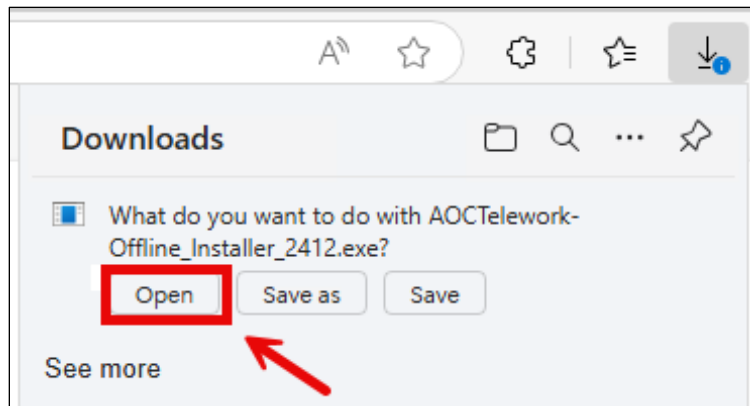

1. **Download** the Omnissa Horizon client app from <https://telework.aoc.gov>

2. **Scroll** to bottom of the page and select the Windows download link.

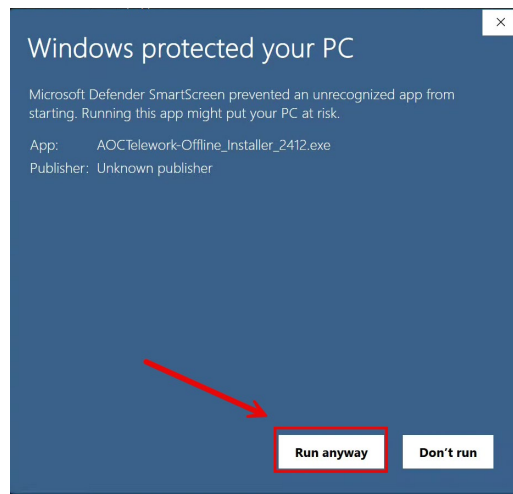

3. **Select** the “Open” button to install the client.

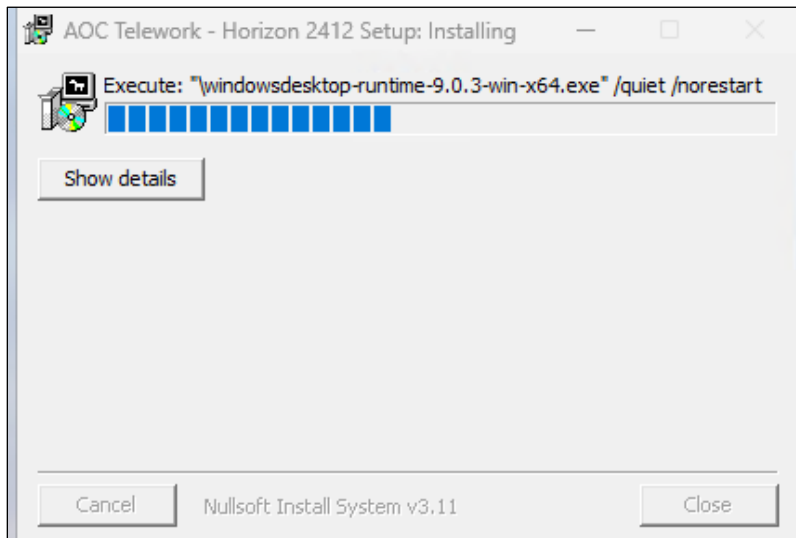

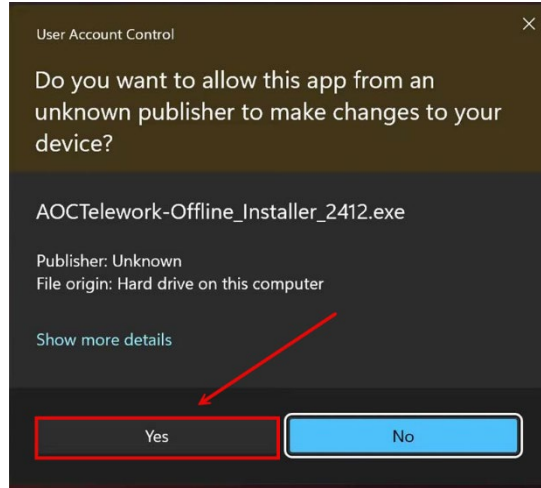

- When prompted on Defender SmartScreen prompt, **select More info.**

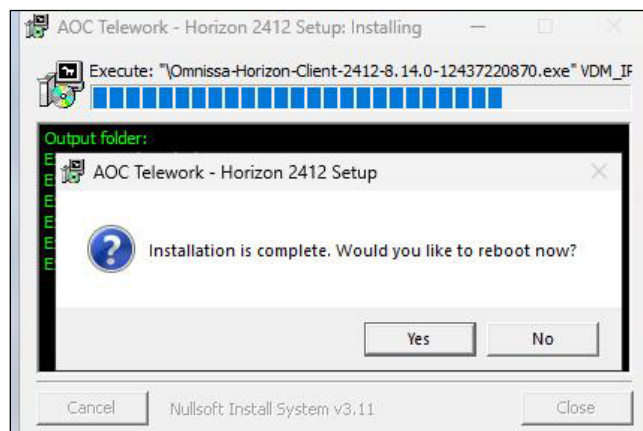

- On the next prompt, **select Run anyway.**

- On the User Account Control (UAC) prompt, **select Yes.**

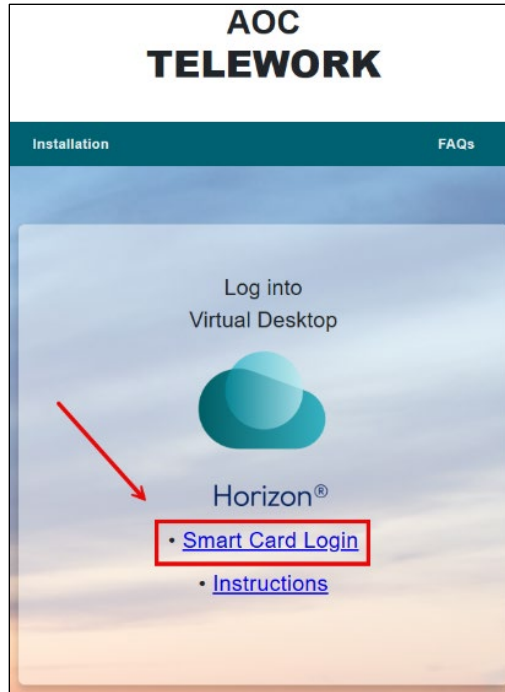

7. **Select Yes** to reboot the device.

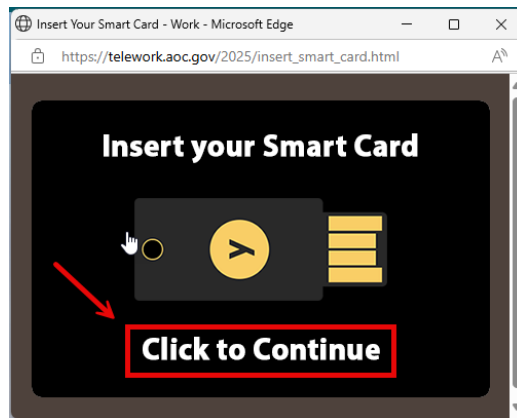

Logging into Horizon

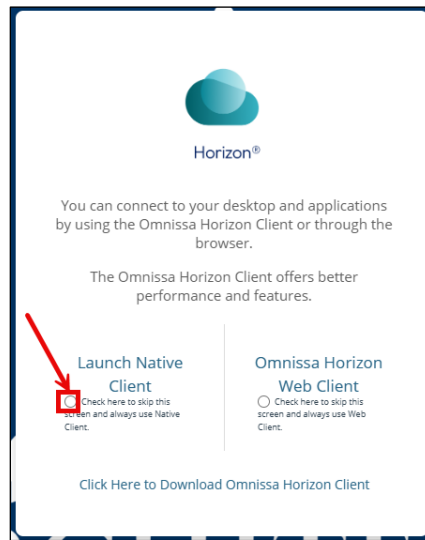

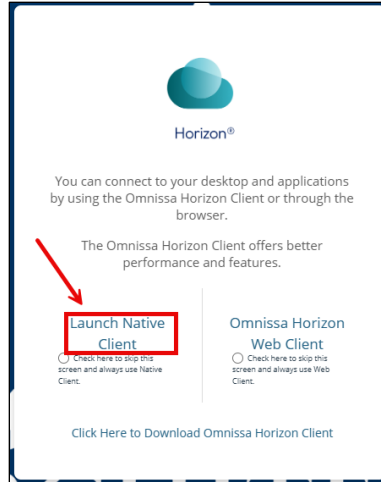

1. From the desktop, *select* the **Ommissa Horizon** client app to launch.
2. *Select* the “**Smart Card Login**” link.

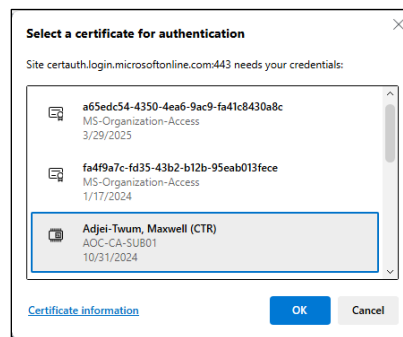

3. Make sure your smartcard is inserted into your laptop.

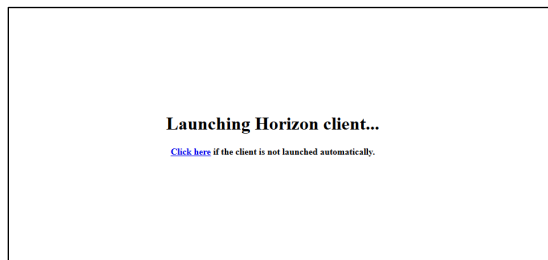

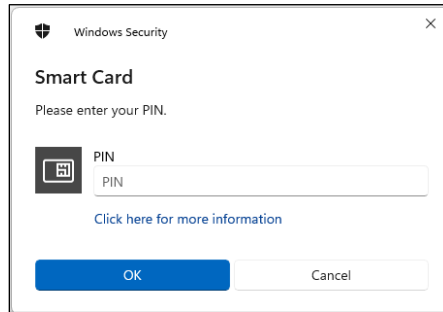

4. **Select** the “**Launch Native Client**” link. You may check the radio button “**Check here to skip this screen and always use Native Client**”, if you wish to launch the native client by default. If you wish to use the Web Client instead, you may select that accordingly.

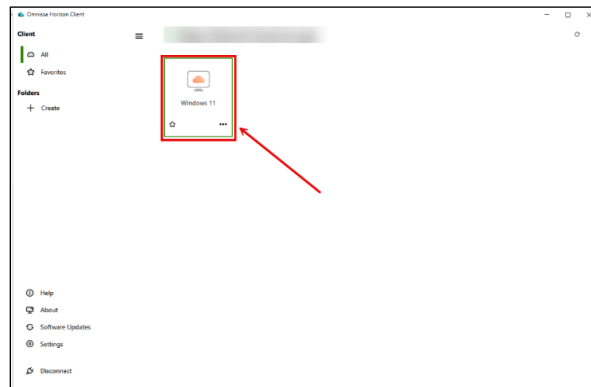

5. **Select** your primary AOC account.

6. **Enter** your login PIN to launch Horizon client.

7. **Double-click** the Windows 11 box on the remote desktop icon to launch interface.

8. Wait for remote desktop to load to begin use.
